## Lucoex Communication Plan

### 1 Purpose

The purpose with Lucoex Communication Action Plan is to present the how the project will perform its' communication to the scientific community as well as to the general public. Internal project communication between the WPs will also be described. Internal WP communication is not within scope of this document.

### 2 Objective

The objective with Lucoex communication is to provide opportunity for the scientific community to give input to the Lucoex project and to spread good practise within the Lucoex members and from the project to the member states in the EU and Switzerland.

### 3 Target groups

#### 3.1 Lucoex internal

Information will be spread between the members of the Lucoex project through:

##### **Project Progress Meetings (PPM)**

5 PPMs are planned for during the project lifetime. The meetings will be held on different sites giving all members the opportunity to get impressions of the different sites and experiments. The PPMs will at each meeting focus on a certain topic which is of special interest to the members.

##### **Project place website**

An internal Lucoex website has been set up at <http://www.projectplace.com>. This site gives the members possibilities to exchange documents, review documents, view Minutes of Meetings, risklist and other information which they want to be shared.

##### **Staff secondment activities**

Opportunities will be arranged for the Lucoex members to visit and participate in other WPs work. This will be further detailed at MS6 "Programme on staff secondment".

##### **Other**

##### **Svensk Kärnbränslehantering AB**

*Swedish Nuclear Fuel and Waste Management Co*

Information will also be shared between the members by the means of newsletter, workshops etc. The main target group for this type of communication is however external.

## **3.2 External**

### **3.2.1 Scientific community and industry**

The scientific community will be updated with information from the Lucoex project by:

#### **Workshops arranged by Lucoex and specific WPs.**

Two workshops will be arranged. The Midterm workshop, which will be held in conjunction with the Clay conference in France, and the Large workshop at the Äspö site at the end of the project.

Workshops will also be arranged in conjunction with PPMs arranged by respectively WP.

#### **Lucoex website**

A Lucoex website has been set up ([www.lucoex.eu](http://www.lucoex.eu)). All deliverables will be published on the website. General information on the project can be found here, eg the Project Presentation D6.2. Scholarship will be announced, and can be applied for, through the website.

#### **Scholarship**

Students from all the members states and Switzerland can apply for scholarship through the Lucoex web. This is further described in the Lucoex project plan.

#### **Training program**

Opportunities will be given to young professionals for a two weeks training program. This is further described in the Lucoex project plan and Scholarship Plan.

#### **Publication in technical magazines and journals.**

The aim is to publish one paper per WP.

#### **Presentations at specific seminars/conferences**

Different forms of presentations will be held by respectively WP at national/international seminars and conferences.

#### **Technical expert group**

A technical expert group will be appointed with representation from non-project organisations. This will ensure independent review and feedback to the project.

#### **European value activities**

At suitable time when interesting materials are available the Lucoex project will invite other European Union organisation to discuss the benefits the results may have to other European concepts.

## **Newsletter**

The project will annually produce a Lucoex newsletter. The newsletter will be sent out to various organisations and published on the website.

### **3.2.2 General public**

The general public will be informed through the Lucoex website.  
Announcement of scholarships will be done at this website.
